

SULEIMAN SWEDI SHABAN

Civil Engineering Technician (Diploma Candidate)

Phone: 0795316640 | Email: sswedi13@gmail.com | Location: Mombasa, Kenya

Career Objective

Motivated Civil Engineering Technician with hands-on site experience and a strong focus on road construction and pavement works. Skilled in AutoCAD, drawing interpretation, and site reporting. Seeking an opportunity in road or infrastructure projects to contribute to surveying, materials control, and site supervision while building practical expertise.

Education

Diploma in Civil Engineering
Kenya Coast National Polytechnic
Expected Completion: December 2026

Technical Skills

- Reading and interpreting engineering and road construction drawings
- AutoCAD drafting (basic layouts and plans)
- Preparation of daily site progress reports
- Basic setting out and level checking (site support)
- Understanding of pavement layers and road construction processes
- Teamwork and coordination with site personnel

Work Experience (Attachment)

Construction Site Trainee
Duration: 3 months

- Prepared accurate daily site reports documenting progress and activities
- Assisted in supervision of construction works on site
- Supported implementation of drawings and ensured work followed specifications
- Coordinated with supervisors and workers to maintain workflow efficiency
- Observed and participated in basic site measurements and operations

Relevant Academic Project

Pavement Design Project

- Studied and applied principles of flexible pavement design
- Determined suitable pavement layer composition
- Used engineering judgment in selecting materials and thickness
- Prepared simple drawings using AutoCAD

Certifications

AutoCAD Certificate

Referee

Available upon request.
